

PBPS (KIT) List of Prevention Program Abbreviations and Activity Number Naming Convention

Recurring Event refers to prevention services provided to the same group of people, on the same topic, in multiple sessions. It is important that you assign a unique Activity Number for each recurring activity. If the same service is provided to different groups of people, then each group needs to have a different number. This way, the Activity Number becomes a useful tool to track recurring prevention activities. It is recommended that you assign a unique activity number to each recurring service activity ahead of time and develop a logical naming convention. For example, use the first two digits to designate the year, the next two – four digits for program’s abbreviation, the next three digits for instructor first, middle, and last initials, , and the last two digits for sections of different groups. Following this format, Activity Number “00RYGBM01” would mean Geoffrey B. Miller teaching the first section of Reconnecting Youth in 2000 would be: 00RYGBM01

0	3	R	Y	G	B	M	0	1
—	—	—	—	—	—	—	—	—
Year	Program Abbreviation				Instructor’s Initials		Section	

If the instructor does not have a middle initial, use “X” as the middle initial. If there are two individuals with the same initials, use “X” as the middle initial for one of them.

Use this list of Prevention Program Abbreviations to create the KIT PBPS Activity Number. The most current list will be on the OSA Website under Prevention / Forms at www.maineosa.org. If your program is not listed here contact Geoffrey Miller at geoff.miller@maine.gov.

One ME Model Programs:

Across Ages	AA
All Stars	AS
Border Binge-Drinking Reduction Program	BBD
Brief Strategic Family Therapy	BSFT
